INPROTEC IRT

Advanced thermal imaging camera with full function analysis

Multiple Product Options

M series products provide wide-angle and manual focus options. The manual focus with a larger focal length option (without "W") is ideal for electrical, HVAC, and mechanical inspection where focusing on specific components is critical. The "W" series features a fixed focus wide FOV making them ideal for scanning walls, floors, and large-scale items.

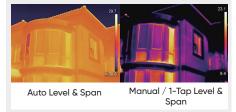

1-Tap Level & Span

Quickly highlights the area of the image you are interested in by narrowing the span with one tap on the **3.5" LCD touchscreen**, instantly improving image contrast and highlighting potential problems.

Interchangeable Battery System

Includes **2 interchangeable Li-ion batteries** and a dual bay charger to provide you with **up to 12 hours** of operation. You can stay powered up for even the longest inspections.

Offers 17 measurement rules, 7 color alarm palettes and 4 image modes for powerful on-camera analysis.

Intuitive 3.5" LCD Touch Screen or interactive buttons to easily navigate to any function. Use either or both!

Support voice, text, and QR Code Scan annotations, helping to improve inspection efficiency and productivity.
